

Media to Advance the use of Geographic Information for the Nation

Project Title	Media to Advance the use of Geographic Information for the Nation
Project Summary	Design a variety of communications materials that effectively relay committee information in a way that is interesting and understandable for a variety of audiences. Apply both graphic design and writing skills to convey committee administrative, programmatic and other information.
Country	United States
Agency	Federal Geographic Data Committee
DoS Office	N/A
Post	N/A
Section	N/A
Number of Interns	2

Project Description

We are looking for a creative and energetic individual who can work collaboratively with FGDC staff on a range of ambitious and innovative projects that communicate committee activities. The intern will co-develop and implement a communication strategy to support our office to communicate visually and express our ideas with skill and clarity. S/he will use a variety of design elements to achieve artistic or decorative effects to create infographics and content for presentations, publications, factsheets, newsletters, website, social media and other communications mediums. This role will often take direction from either written and/or spoken ideas and will need to convert them into images, layouts and designs.
